Southern Airways Express Launched at the Morgantown Municipal Airport

MORGANTOWN – The Morgantown Area Chamber of Commerce invited the public to learn more about Southern Airways Express at the Morgantown Municipal Airport's Jet Center Building on Wednesday, September 21.

The community joined Southern Airways and airport staff at the Business After Hours event to learn about the services that the airlines will offer.

"We're happy to have Southern Airways already working with the Chamber of Commerce, the Conventions Visitors Bureau, and other businesses to ensure that marketing is affective," said Interim City Manager Glen Kelly. "Their interaction will allow them to serve the city much better than the previous airline."

At the event, attendees experienced live music, giveaways every 15 minutes, and food provided by Lakeview Golf Resort & Spa.

"We are extremely pleased to welcome Southern Airways Express to the greater Morgantown community and even more pleased that our newest member has agreed to host our signature business networking event at the airport in a family friendly atmosphere," said Jason Pizatella from the Morgantown Area Chamber of Commerce.

Beginning in November, Southern will fly three times a day out of Morgantown to Pittsburgh International Airport and three times a day to Dulles International Airport.

"I look forward to Southern starting operations as they provide a reliable, green, low cost airline solution to support our community, university and business traveler's needs," said Kelly. "I know that we will have a reliable airline in the coming months."

Southern Airways, the Morgantown Area Chamber of Commerce, and the Morgantown Municipal Airport partnered together for this Business After Hours event.
